To work in a competitive environment where I can unite my skills and motives with the organizational goals and utilize the best of my knowledge and to learn continuously.

PROFESSIONAL SUMMARY

- Distinguished, enthusiastic & self-motivated professional with 7 years of work experience, in IT with proven ability to design, deliver & manage the projects.
- Working as a face of the client in an AGILE model environment.
- Experience in implementing Spring framework
- Extensive experience in multi tiered Architecture with Java, Servlets and JSP.
- Extensive experience in PL/SQL
- Extensive experience in Jasper Reports and i-report tool
- Experience in testing for the new features release.
- Having Knowledge on PVCS and SVN as version control tool.
- Having Knowledge on App/Web servers BEA Web logic and Tomcat server.
- Having Knowledge on Oracle 11 g.
- Having experience on Eclipse.
- Exposure to various technologies platforms including Hadoop and Hive.
- Have experience of handling the business requirement software development processes and managing people & deliveries.
- Understanding, Assisting, Planning, Eliciting and monitoring the requirements of the business case.
- Exposure to AWS cloud services.
- Experience in Docker, Kubernetes and Camunda tool

WORK SUMMARY

MARLABS INNOVATIONS->UNDERWRITER LABORATORIES (SEP'2021 – Till Date)

ROLE : Technical lead

Responsibilities :

- To develop java workflow based web application using Spring Boot framework.
- Creating CI/CD pipelines using docker & kubernetes.
- To understand new requirement of the functional document and create jira user story.
- Support client for production issues.
- Working in the AGILE SAFE model environment.
- Deploying of web applications in cloud platform.
- Migrating maven project to Springboot.

TECHNOLOGIES / TOOLS:

- Java 11, Junit testing, Integration testing, Spring boot, Spring Boot Web services, JIRA, Git, Maven, Postman, Docker, Kubernetes.

SOPRA STERIA-> QUOTO TELECOM PROJECT (JAN'2021 – AUG'2021)

ROLE : Module lead

Responsibilities :

- To develop java workflow based web application using Spring web framework.
- Creating CI/CD pipelines using docker & kubernetes.
- To understand new requirement of the functional document and create jira user story.
- Support client for production issues.
- Working in the AGILE SAFE model environment.
- Deploying of web applications in cloud platform.

TECHNOLOGIES / TOOLS:

- Java 8, Angular 8, Jasmin Karma, Junit testing, Integration testing, Spring boot, Spring Boot Web services, JIRA, Git, Maven, Postman, Docker, Kubernetes.

SOPRA STERIA -> ALICE RETAIL PROJECT (SEP'2019 – DEC'2020)

ROLE : Module lead

Responsibilities :

- To develop java web services using Alice framework.
- To design the new feeds & any changes in the existing process to fit into the existing architecture – modifying & developing YAML and writing JOOQ queries.
- To understand new requirement of the functional document and developed accordingly.
- Analyzing, debugging various issues or bugs, and provide timely resolution for that.
- Working in the Waterfall model environment.

TECHNOLOGIES / TOOLS:

- Java 8, Junit testing, Integration testing, Spring boot, Spring Boot Web services, JOOQ, Apache Exchange, JIRA & Sciforma, Git , Gitlab, Maven, Postman, Docker, Kubernetes.

TCS -> ELI LILLY PROJECT (JUNE'2017-AUG'2019)

ROLE : Lead Java 8 Developer

Responsibilities:

- To develop java 8 web application using Spring MVC ,Hibernate and Torque ORM framework
- To design the new feeds & any changes in the existing process to fit into the existing architecture - Database Oracle SQL and PL/SQL.
- Designing all the Database level changes (Oracle) according to business need, designed and implemented delta load into the system through the Oracle Procedure.
- To understand new requirement of the data & reports for the new enhancement release.
- Analyzing, debugging various Production issues, and provide efficient resolution to client.

TECHNOLOGIES / TOOLS:

Java 8, J2EE, Servlets, Torque, Hibernate JSP, Spring MVC, Tomcat 7 and 9, Web servers BEA Web logic Oracle PL/SQL, HP-ALM Quality Center (QC), Service Now.

TCS -> SBI CORE BANKING PROJECT (OCT'2013 - MAY'2017)

ROLE : Core Java 7 Developer

Working with SBI – LOS (Loan Origination Software) project on Client location.
