Objective

Seeking a dynamic role within an innovative organization where I can leverage my expertise in Java development, Spring Boot, RESTful services, and React to drive impactful solutions. Committed to continuous growth and alignment with organizational objectives, I aim to contribute my skills and enthusiasm towards achieving shared success and fostering a culture of excellence.

Professional Summary

- Distinguished, enthusiastic & self-motivated professional with 10 years of work experience in IT, proficient in designing, delivering & managing projects.
- Experienced in Java development, with expertise in Java 11, 17, and 21, as well as Spring Boot version 3.0 and above.
- Skilled in building REST microservices, including modular microservices architecture with API Gateway, Eureka Discovery server, config server, Kafka, ActiveMQ, and implementing Zipkin for log tracing.
- Proficient in error handling within microservices architecture.
- Extensive experience in multi-tiered architecture with Java, Servlets, and JSP, coupled with 3+ years' experience in React.js, Next.js, and Tailwind CSS.
- Hands-on experience with MongoDB for database management and AWS services such as EC2 instances, IAM authentication, and CloudWatch for monitoring.
- Versatile in Agile methodologies, serving as the client interface in AGILE SAFE model environments.
- Proficient in implementing Spring framework and Spring Boot for developing web applications, including migration of Maven projects to Spring Boot.
- Experienced in testing new features releases, with knowledge of JUnit testing and integration testing.
- Exposure to version control tools like Git, as well as CI/CD pipelines using Docker and Kubernetes.

Work Summary

Marlabs Innovations : Underwriter laboratories (SEP'2021 – Till Date)

Role : Senior Technical lead

Responsibilities :

- To develop java workflow based web applications using Spring Boot framework.
- Creating CI/CD pipelines using docker & kubernetes.
- To understand the new requirement of the functional document and create a jira user story.
- Support client for production issues.
- Working in the AGILE SAFE model environment.
- Deploying web applications in cloud platforms.
- Migrating maven project to Springboot.

Technologies/Tools : Java 17, React 18, Kafka messaging service, Sql Server, Junit testing, Integration testing, Spring boot, Spring Boot Web services, JIRA, Git, Maven, Postman, Docker & Kubernetes.

Sopra Steria : Quoto Telecom Project (JAN'2021 – AUG'2021)

Role : Senior Module lead

Responsibilities :

- To develop java workflow based web applications using Spring web framework.
- Creating CI/CD pipelines using docker & kubernetes.
- To understand new requirements of the functional document and create a jira user story.
- Support client for production issues.
- Working in the AGILE SAFE model environment.
- Deploying web applications in cloud platforms.

Technologies/Tools : Java 11, Next.js 14, Mysql, Jasmin Karma, Junit & Mockito testing, Integration testing, Spring boot Rest API, Spring Boot Web services, Jira, Git, Maven, Postman, Docker & Kubernetes.

Sopra Steria : Alice Retail Project (SEP'2019 – DEC'2020)

Role: Module lead

Responsibilities :

- To develop java web services using the Alice framework.
- To design the new feeds & any changes in the existing process to fit into the existing architecture – modifying & developing YAML and writing JOOQ queries.
- To understand new requirements of the functional document and develop accordingly.
- Analyzing, debugging various issues or bugs, and providing timely resolution for that.
- Working in the Waterfall model environment.

Technologies/Tools : Java 8, React 13, Postgresql, ActiveMQ, Junit & Mockito testing, Integration testing, Spring boot, Spring Boot Rest Microservices, JOOQ, ActiveMQ, Jira & Sciforma, Git , Gitlab, Maven, Postman, Docker & Kubernetes.

TCS: Eli Lilly Project (JUNE 2017-AUG'2019)

Role: IT Analyst

Responsibilities :

- To develop java 8 web application using Spring MVC , Hibernate and Torque ORM framework
- To design the new feeds & any changes in the existing process to fit into the existing architecture – Database Oracle SQL and PL/SQL.
- Designing all the Database level changes (Oracle) according to business need, designed and implemented delta load into the system through the Oracle Procedure.
- To understand the new requirement of the data & reports for the new enhancement release.
- Analyzing, debugging various Production issues, and providing efficient resolution to clients.

Technologies/Tools : Java 8, J2EE, Servlets, Torque, Hibernate JSP, Spring MVC, Tomcat 7 and 9, Web servers BEA Web logic Oracle PL/SQL, HP-ALM Quality Center (QC), Service Now.

TCS : SBI Core Banking Project (OCT'2013 - MAY'2017)

Role : Lead Java 7 Developer

(Core developer in LOS using spring framework)

Working with SBI – LOS (Loan Origination Software) project on Client location. LOS is a workflow based web application which deals with sourcing of Agricultural and Small and Medium Scale Enterprise Loans, Appraisal of the loans to Pre disbursement of the loans. It has 3 modules namely AGRI , SME and Interface wherein Interface is the link between the LOS and CBS(Core Banking System). It provides all business validations and calculations of Loans and Repayments under various schemes and products of SBI. Brief Project Experience of LOS – 3 years experience of SDLC process in LOS.

Technologies/Tools : Java 7, J2EE, Servlets, JSP, Spring MVC, Tomcat 7 & 9, Oracle SQL-PL/SQL, SVN as version control tool, Jasper Reports & I-report tool.

Personal Qualities

- Ability to produce the best result in pressure situations.
- Ability to work in a team as well as in a group.
- Ability to manage and execute multiple projects simultaneously.
- Excellent knowledge of troubleshooting and debugging with effective resolution.
- Eager to learn new skills and techniques to improve my efficiency at the workplace.
- Ability to communicate effectively across different channels and departments.

Keys Responsibilities Handled

- Provide full lifecycle support to clients from initial client interaction and requirements analysis through design, coding, testing, debugging, implementation and integration.
- Provide ongoing application support and troubleshooting for MVC based applications.
- Created a tool for website testing using Selenium Web driver.
- Wrote documentation for new and legacy applications.
- Good knowledge of the processes.

Awards

- On the Sport Award
- Service and Commitment Award
- Best Team Award
- Best Mentor Award

Roles

Tech Lead	Sep-21 to Till date
Module Lead	Sep-19 to Aug-21
Information Technology Analyst	Oct-17 to Aug-19
Systems Engineer	April-15 to Sep-17
Asst. Systems Engineer	April-14 to Mar-15
Trainee	Mar-13 to Mar-14

Education

B.Tech	G.B.T.U	65.5 %
HSC (XII)	C.B.S.E	75.6 %
SSC (X)	C.B.S.E	73.2 %

Personal Details

Date of Birth : 22nd March 1990

Hobbies & Interests : Playing Chess and Reading Books

Languages known : English, Hindi and Sindhi

Declaration

I, Neelabh Lakhmani, hereby declare that all information provided by me in this resume is true and authentic to the best of my knowledge.
